Student life.
Organized.

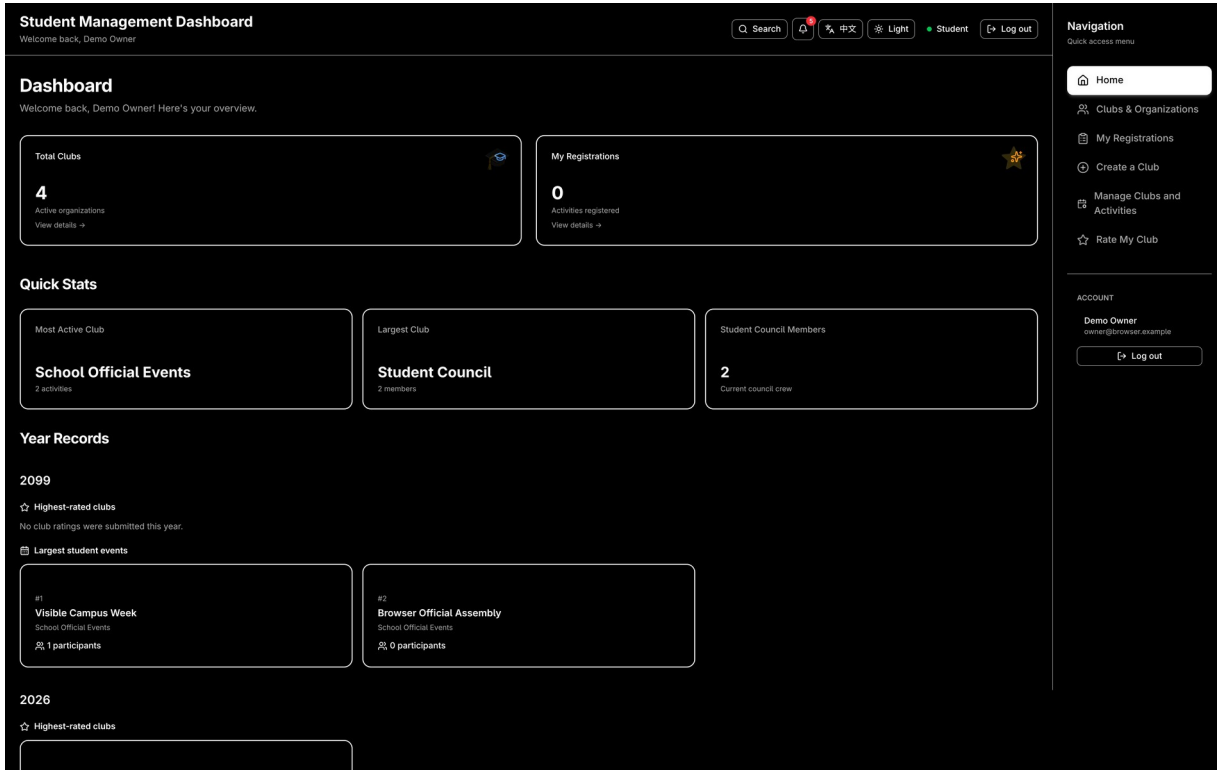

Student Management Dashboard

A shared place for clubs, activities and participation.

STUDENTS

CLUB OWNERS

TEACHERS

One connected school experience

Bring the steps around an activity into one place.

01

Discover

Students need a clear way to find clubs and upcoming activities.

02

Coordinate

Club owners need registrations, member lists and attendance together.

03

Keep a record

Teachers need visibility into applications, participation and council teams.

The project connects discovery, organization and reflection.

Three perspectives. Clear responsibilities.

Club ownership is a responsibility within the student role.

01

Student

Browse and join clubs. Register for activities. Read journals and share feedback.

02

Student club owner

Manage owned clubs, plan activities, record attendance and publish journals.

03

Teacher

Review club applications, organize official events and manage student council years.

The original internal teacher role is named “founder”; student club founders stay students.

From an idea to a shared memory

A complete journey around a school club.

01

Apply

Propose a club

02

Approve

Teacher reviews

03

Organize

Plan an activity

04

Participate

Register and attend

05

Reflect

Journal and feedback

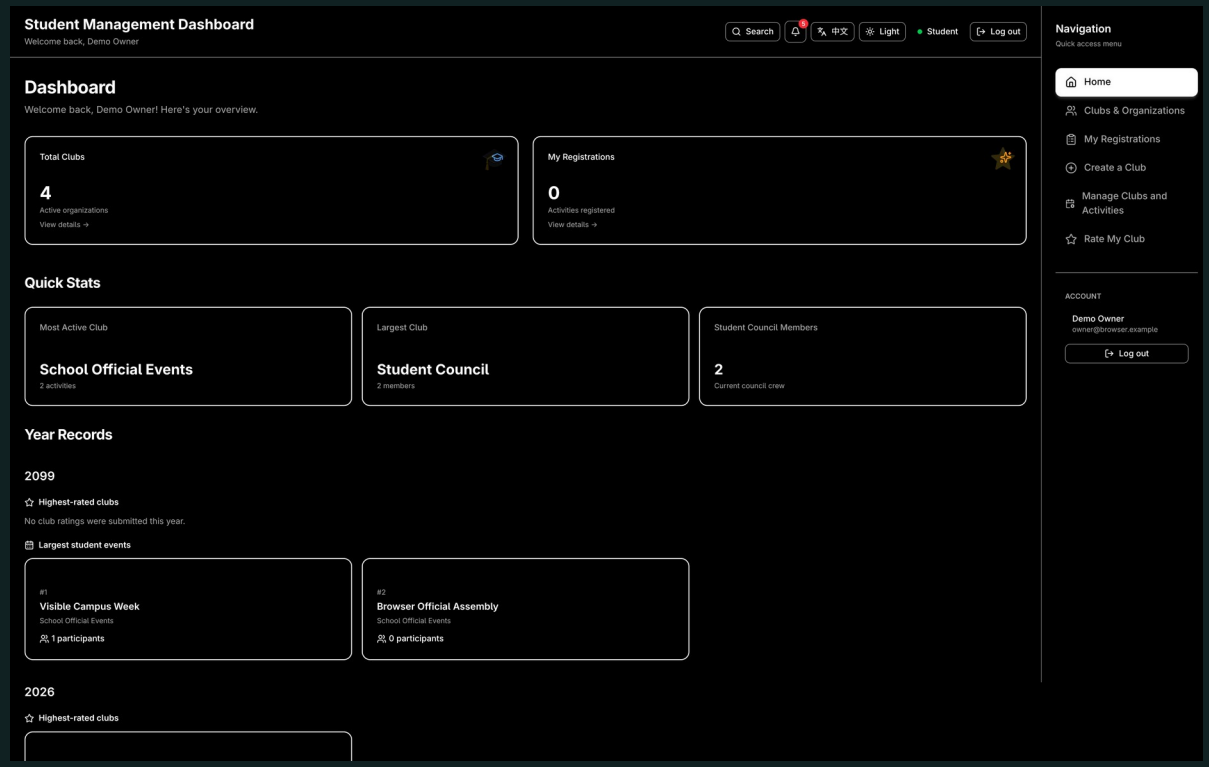

Notifications connect the people involved at each stage.

A useful starting point

See clubs, registrations and community activity at a glance.

Student / Home

- Dashboard summaries come from stored application data.
- Club and activity links lead into the next action.
- Language and theme controls support the existing interface.

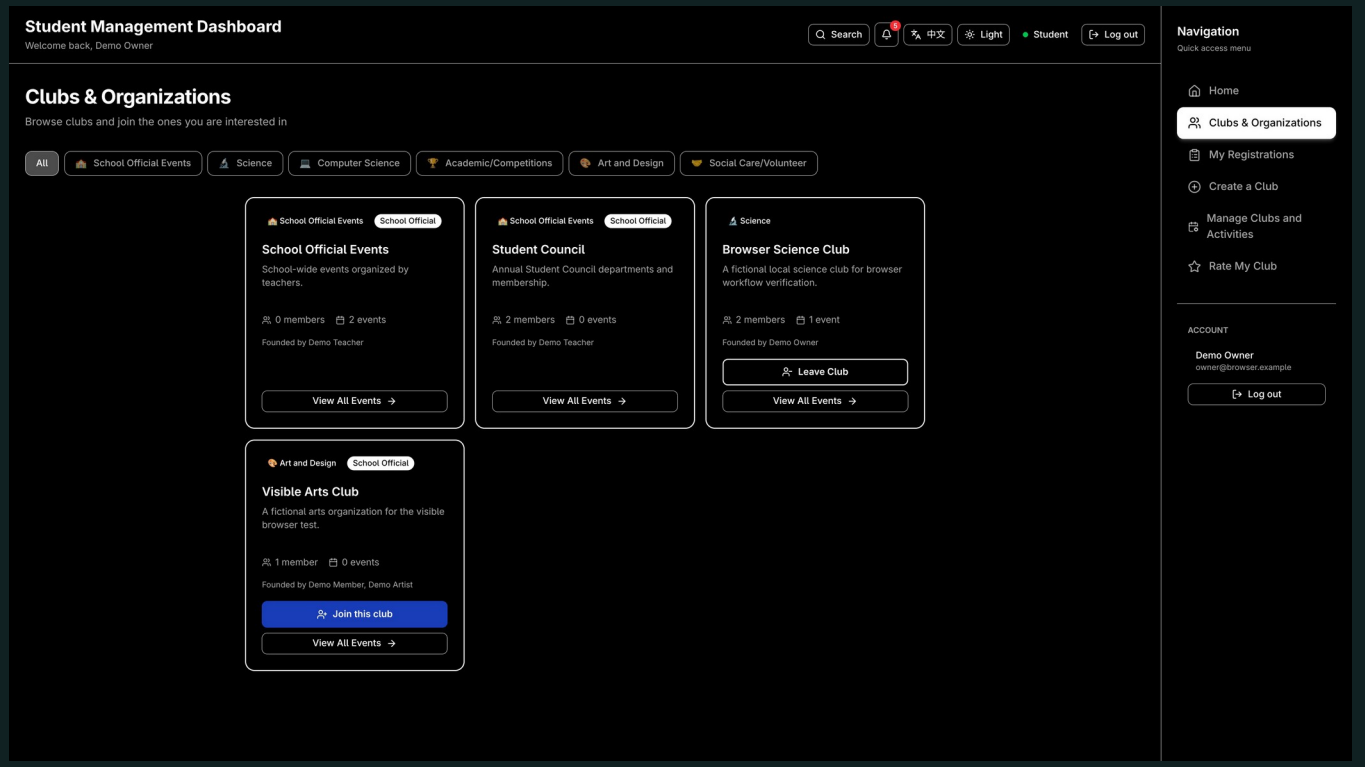

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Find a club. Find your people.

Browse categories and open a club to explore its activities.

Student / Clubs & Organizations

- Explore clubs and organizations by category.
- Join or leave ordinary clubs from the interface.
- Official organization membership is managed by teachers.

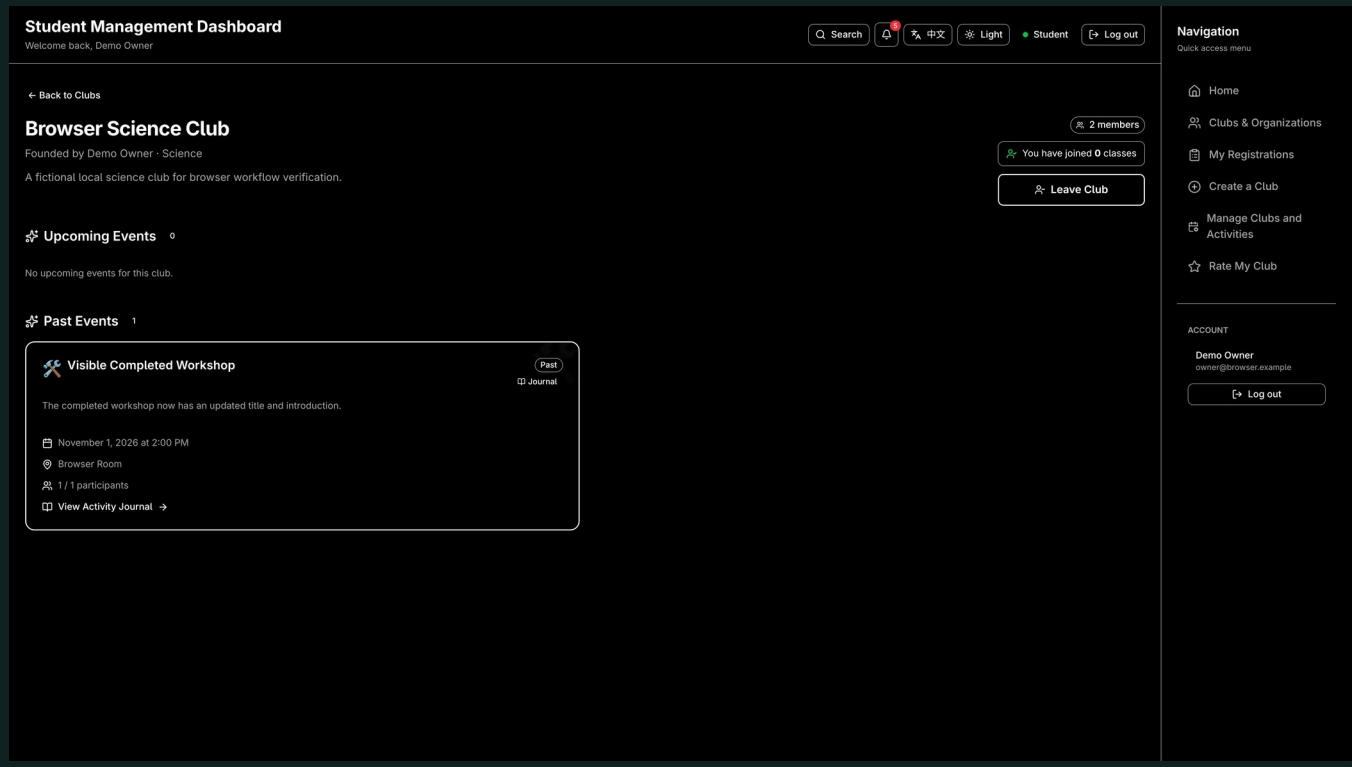

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Make participation straightforward

View an activity, register, then find it in My Registrations.

Student / Club detail

- View upcoming and past activities for a club.
- Registration checks available capacity and whether the activity is open.
- My Registrations brings a student's bookings together.

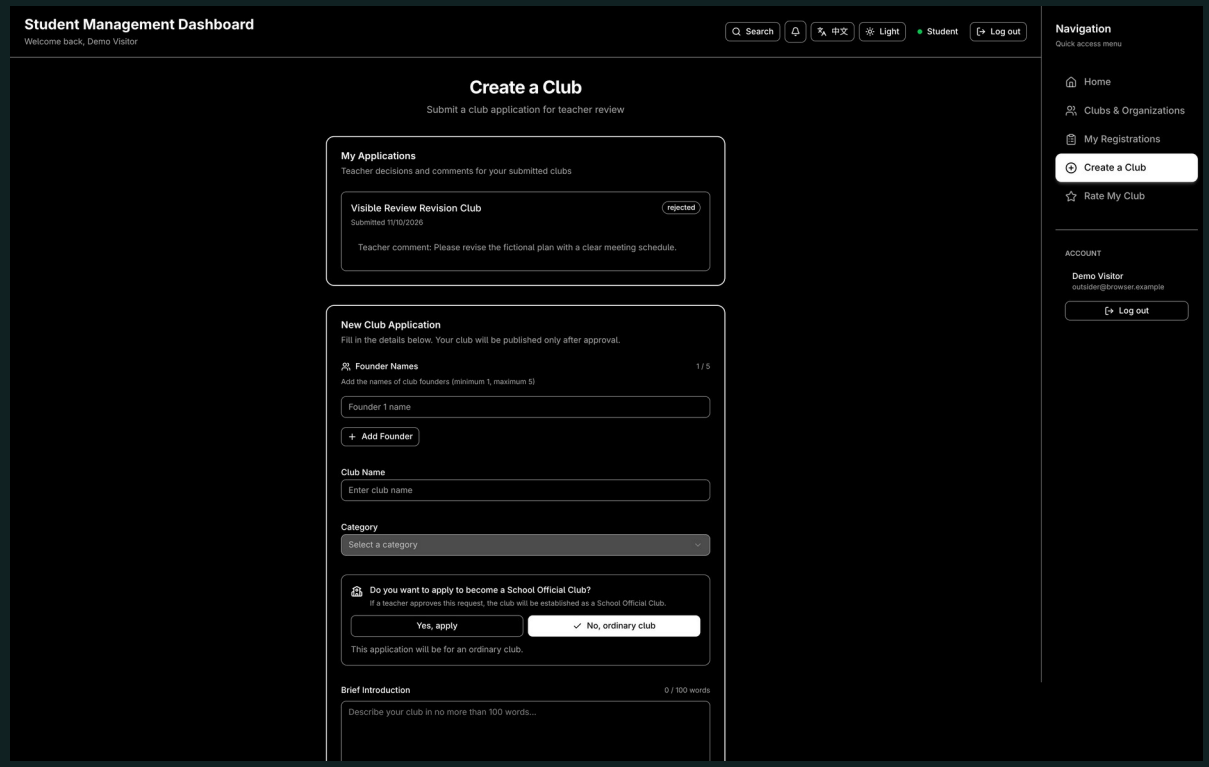

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Turn a club idea into a proposal

A structured application connects students with teacher review.

Student / Create Club & My Applications

- Provide club details, category and founder names.
- Official-club requests also identify a managing teacher.
- Track the decision and read the teacher's feedback.

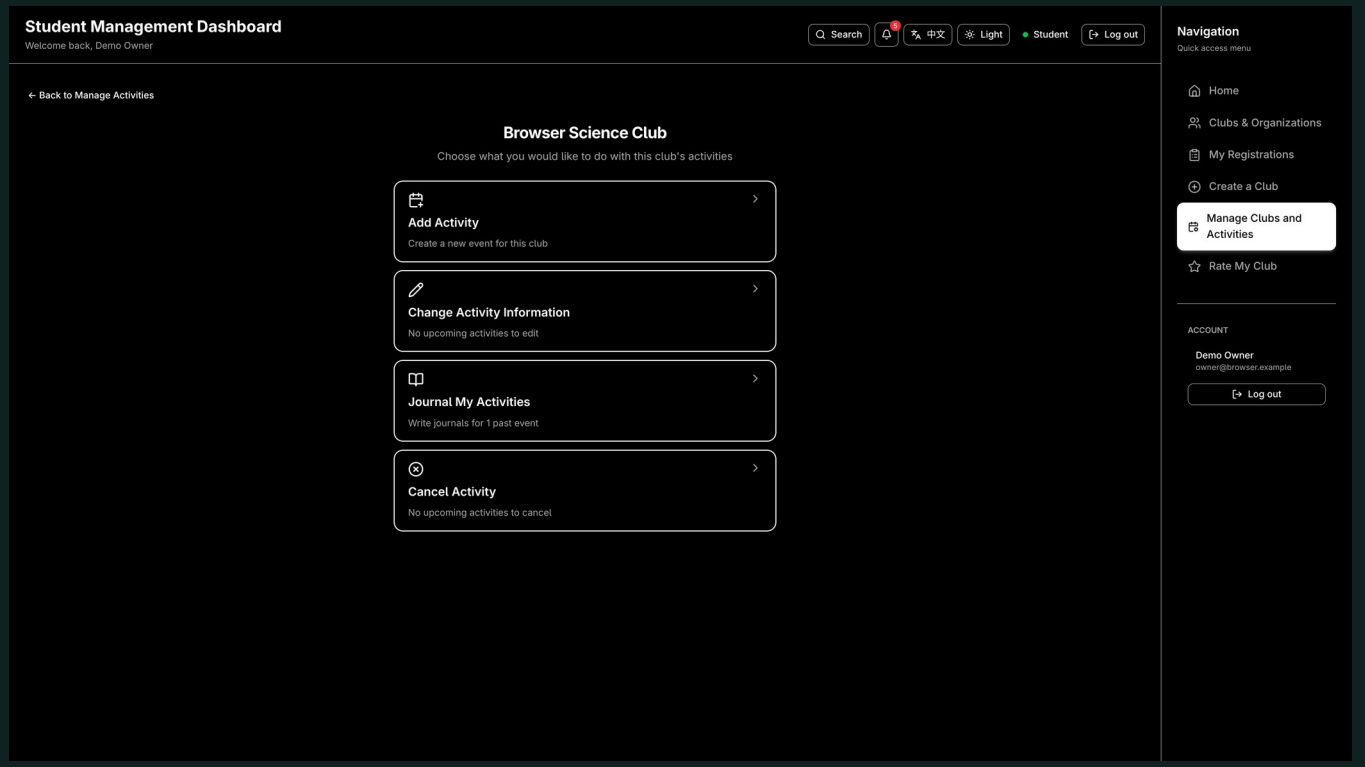

ACTUAL APPLICATION · FICTIONAL DEMO DATA

One place to run a club

Owned-club tools separate member work from activity planning.

Student club owner / Activity management

- Open member rosters and weekly check-in.
- Add and edit activities for an owned club.
- Cancel upcoming activities with a participant message.

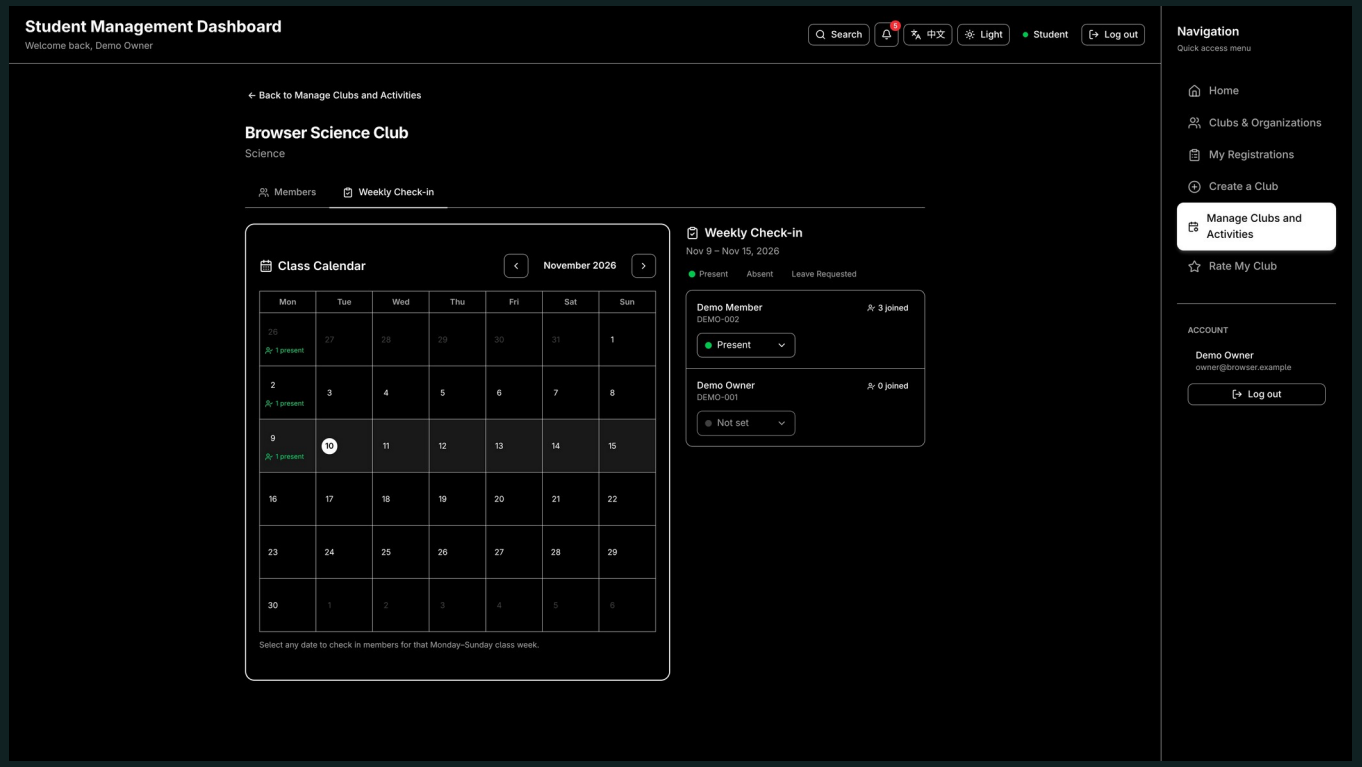

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Record attendance by week

A calendar view turns participation into a usable record.

Student club owner / Weekly check-in

- Choose a week and mark present, absent or leave.
- Records belong to a club, student and week.
- Three present sessions help determine rating eligibility.

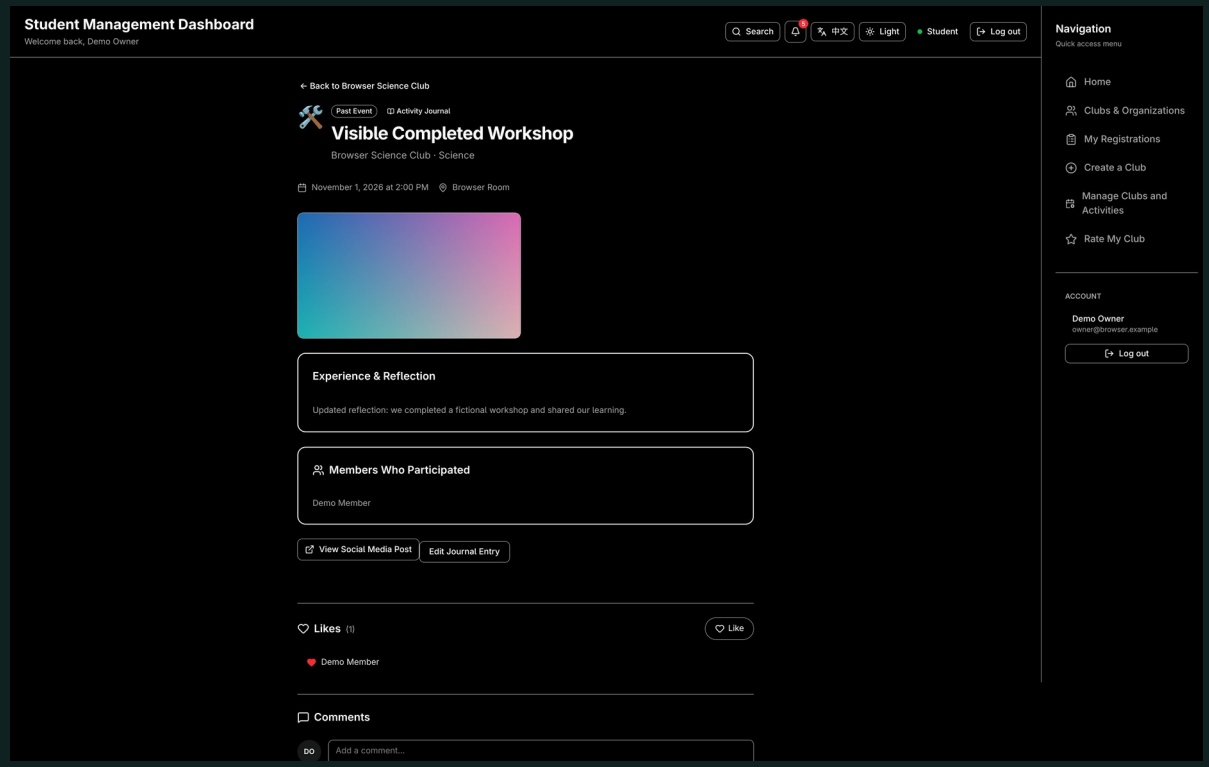

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Give each activity a story

Publish reflections, participants, photos and a social link.

Community / Published activity journal

- Club owners create and edit the activity journal.
- Authenticated users can view published journals.
- Likes, rated comments and replies keep the conversation going.

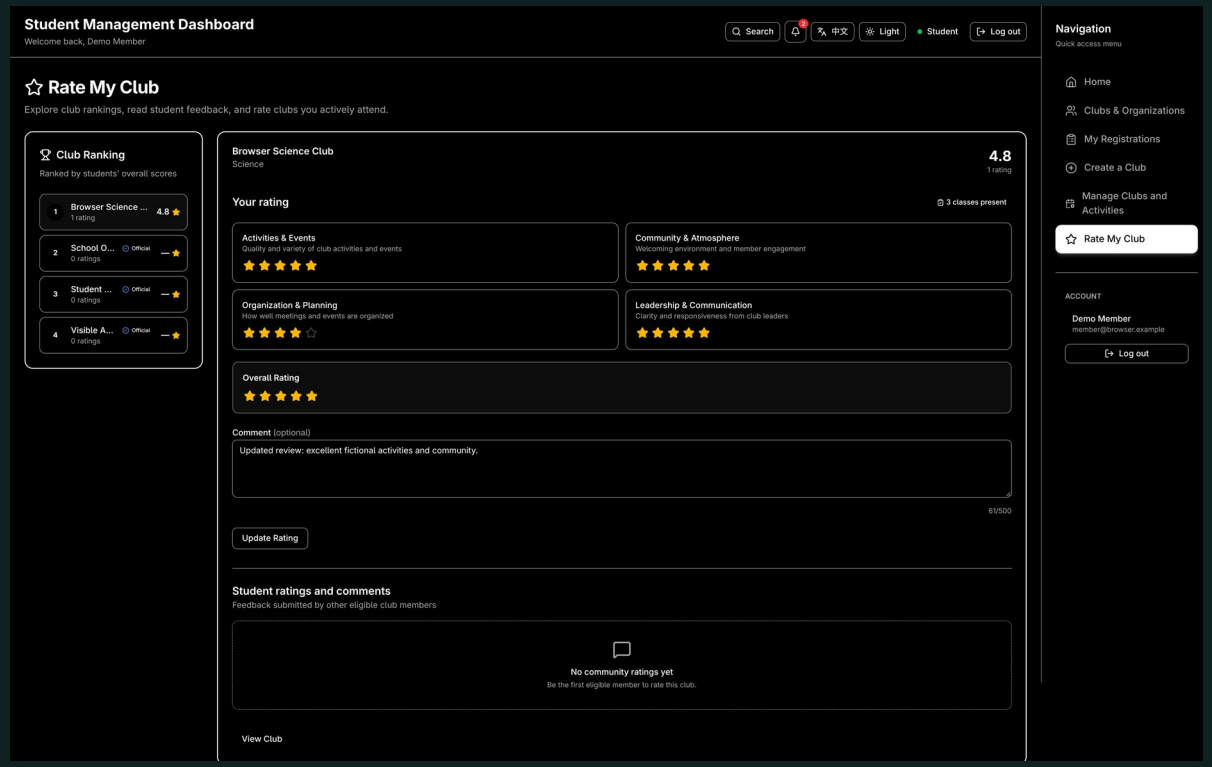

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Feedback grounded in participation

Club ratings combine attendance eligibility with community feedback.

Student / Rate My Club

- Students must be members with three present sessions to rate.
- Ratings cover four dimensions plus an overall score.
- Students can update their rating; teachers can review summaries.

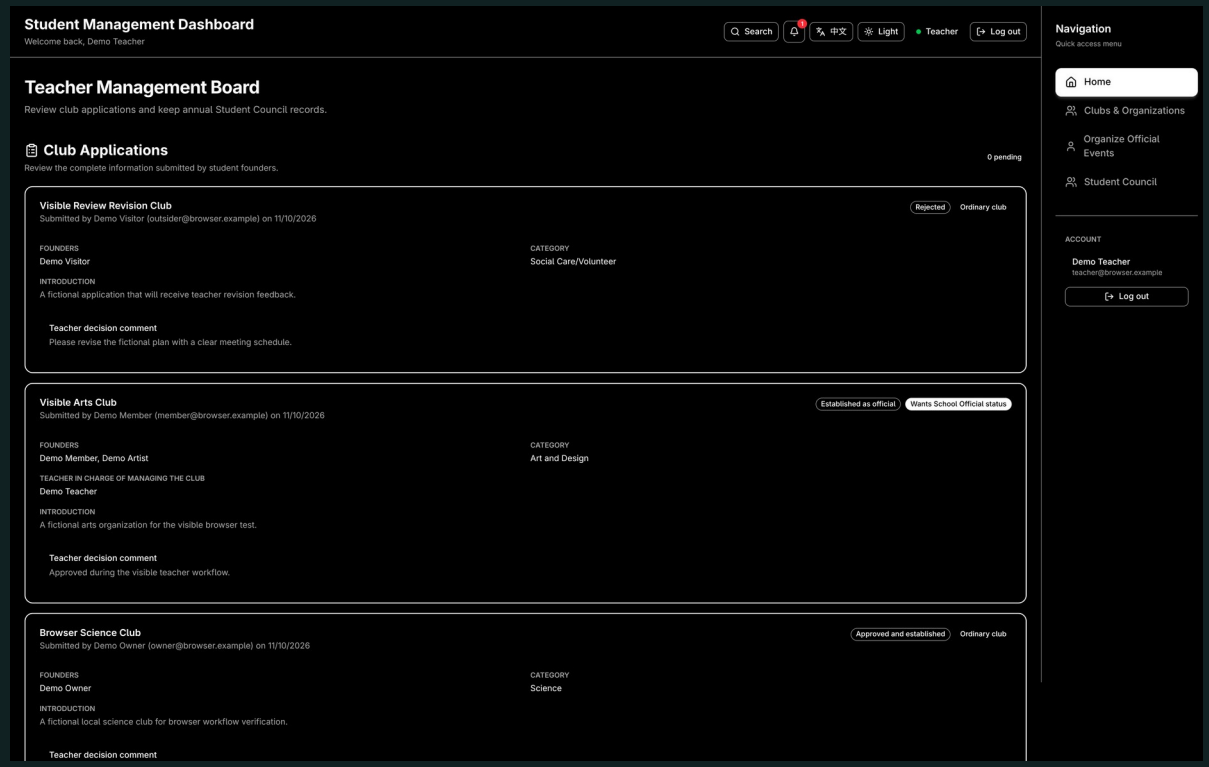

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Support clubs with clear decisions

The teacher home page brings applications and school activity together.

Teacher / Management board

- Review pending club applications.
- Approve a club or reject it with a reason.
- Applicants receive the result and feedback.

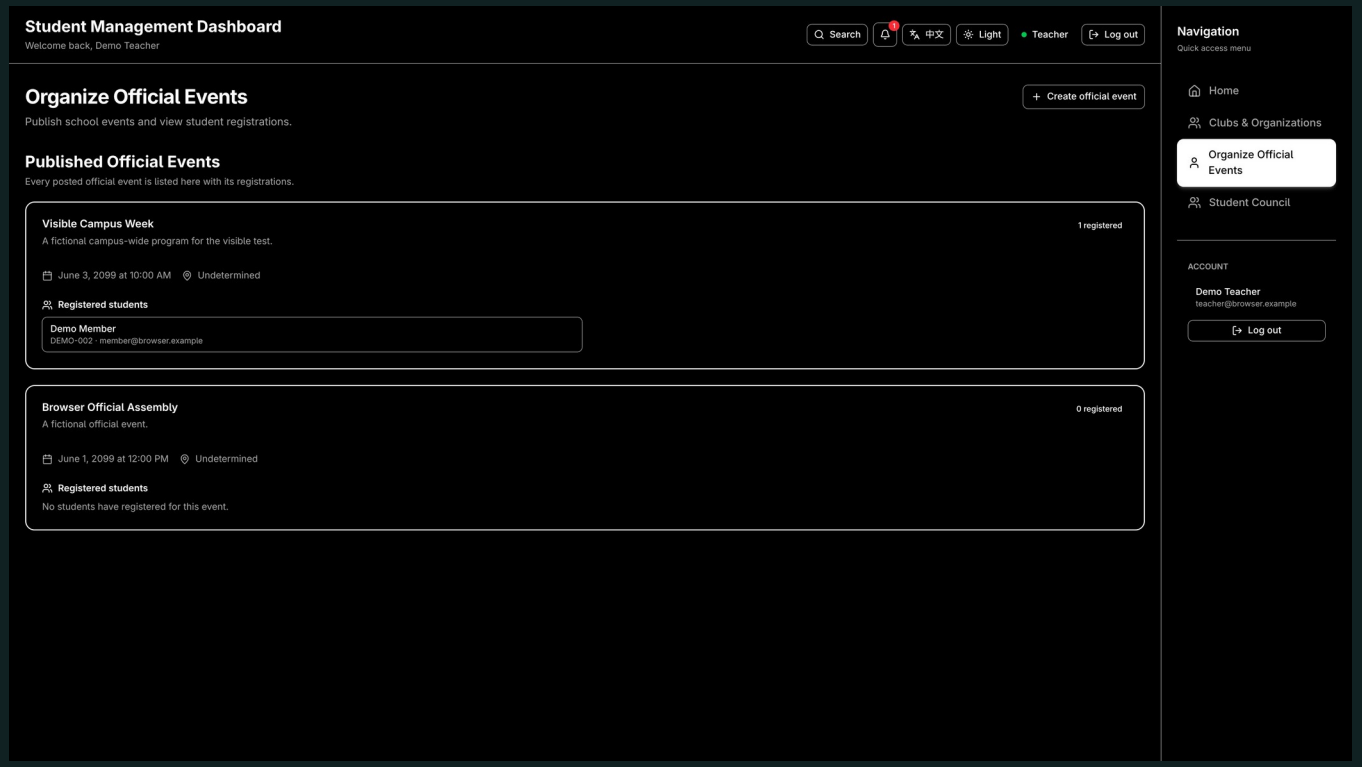

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Coordinate official school activity

Teachers publish official events and review participation.

Teacher / Official events & participation

- Create official events using the activity form.
- View students registered for each event.
- Review club attendance and rating summaries.

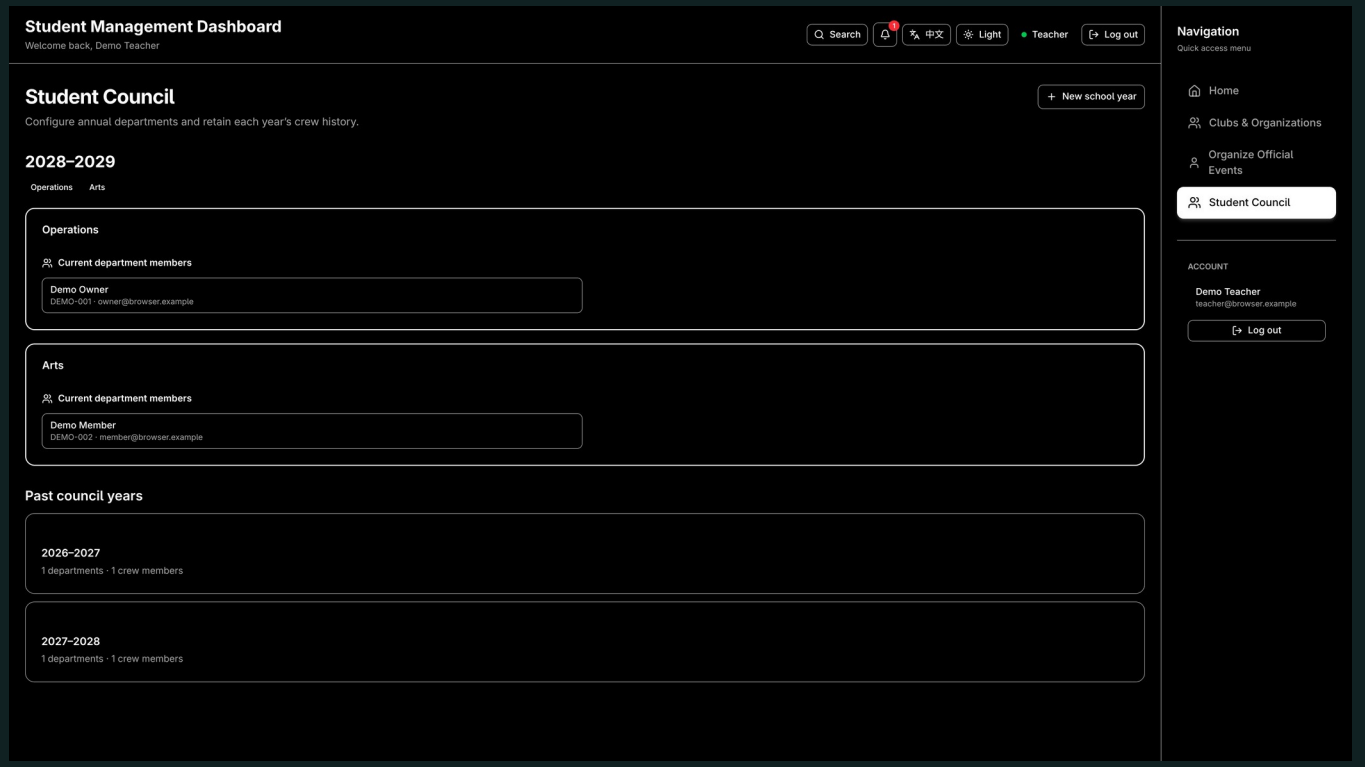

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Keep council years connected

Create a new team while preserving earlier council terms.

Teacher / Student Council

- Set the school year and departments.
- Search and select students for the new crew.
- Archive the previous term and inspect its details later.

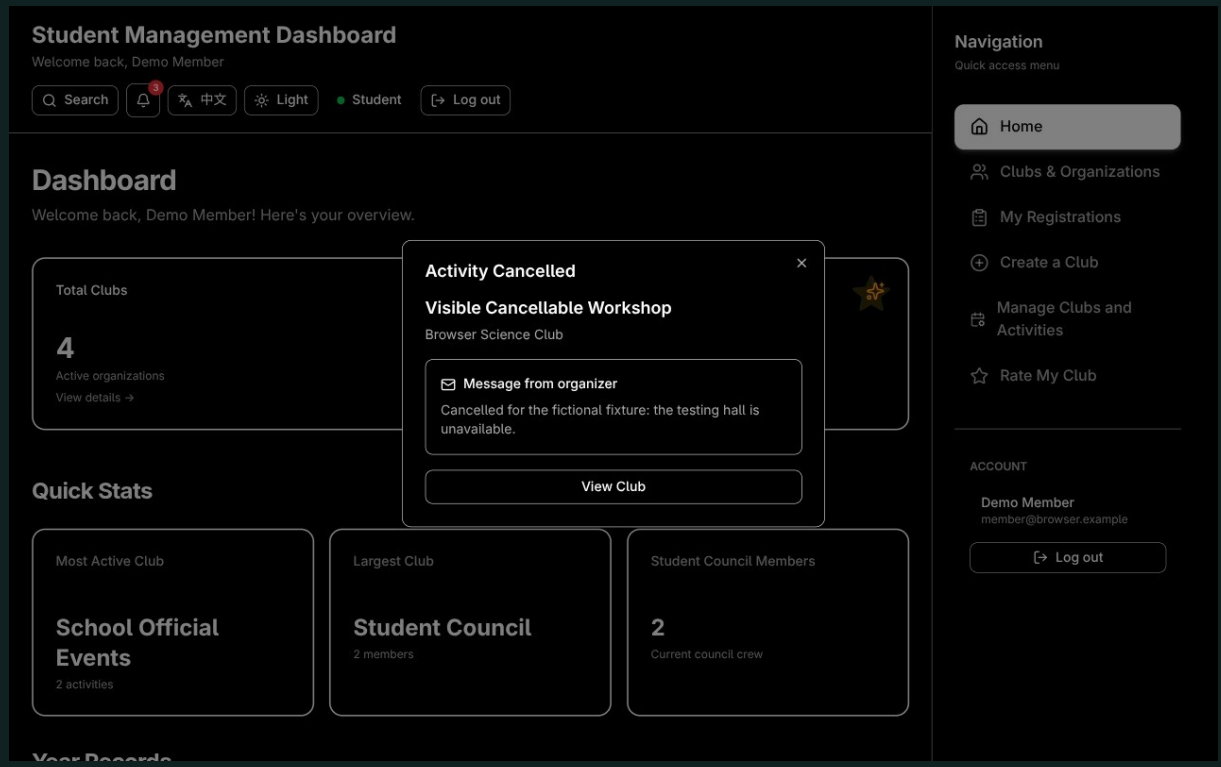

ACTUAL APPLICATION · FICTIONAL DEMO DATA

Close the loop with notifications

Updates appear where people can act on them.

Student / Cancellation notification

- Application decisions return to the applicant.
- Registrations and journal interactions inform the relevant people.
- Cancellation notices preserve the message for participants.

ACTUAL APPLICATION · FICTIONAL DEMO DATA

A shared UI. A persistent backend.

A TypeScript monorepo connects the screens to stored data.

apps/web

React + Vite

Routes, forms and role-aware views

shared

Zod + TypeScript

Request / response contracts and helpers

apps/server

Express 5 + Better Auth

Sessions, validation and authorization

PostgreSQL

Drizzle ORM + migrations

Users, clubs, activities, records and photos

Browser → Authenticated API → Validated command → Database transaction

The server checks identity and permissions before saving a command in a transaction.

Make the records dependable

Checks live alongside the data and workflows.

01

Identity

Better Auth sessions identify the user. Teacher and owner permissions are checked by the server.

02

Validation

Shared Zod contracts check command inputs and responses. Capacity, attendance and journal rules are enforced.

03

Persistence

PostgreSQL stores business data and journal photos. Transactions keep connected writes together.

Students receive scoped data; roster contact access depends on role and ownership.

Show the product as it exists

Visible workflows and backend-only services are distinct.

01

Visible in this presentation

Clubs, applications, activities, registrations, attendance, journals, feedback, official events, council years and notifications.

02

Backend-only today

Club and event election services exist, but election links redirect to Clubs. There is no rendered election or scoring screen.

Screenshot evidence demonstrates captured interface states. Test results are reported separately in the project handoff.

Discover. Participate. Organize. Reflect.

One connected workflow for extracurricular life.

Students take part. Club owners coordinate. Teachers support and oversee.

STUDENT MANAGEMENT

PROJECT PRESENTATION

Explore the page gallery next, or open the dashboard for a live walkthrough.

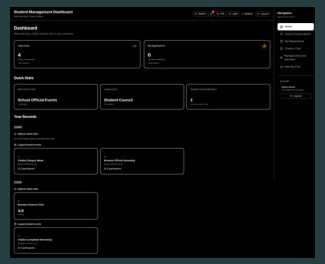

Discover your community

Sign in, find a club, and inspect its people.

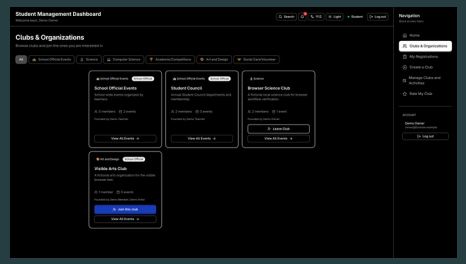

01 · Sign in, empty credentials

Sign in with empty credentials; no account details are exposed.

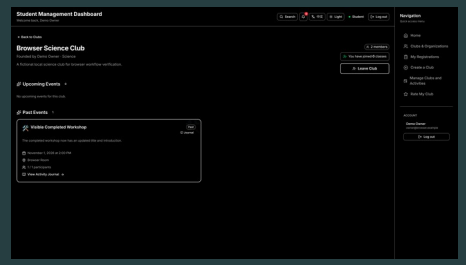

03 · Dashboard

The owner’s dashboard collects clubs, activities and quick actions.

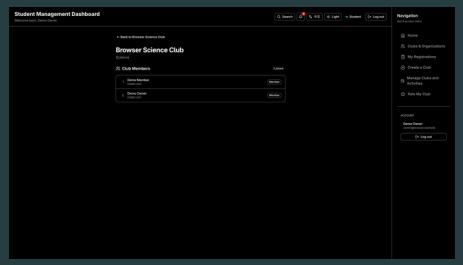

04 · Clubs and organizations

Browse clubs and organizations before opening a detail page.

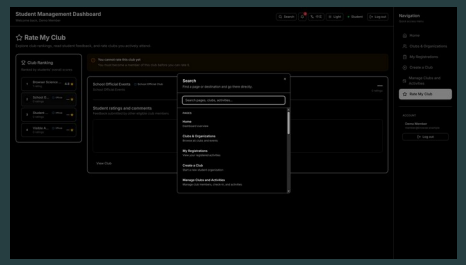

05 · Club detail and activities

Inspect a club’s description and its activity list.

06 · Club member directory

Open the club’s member directory.

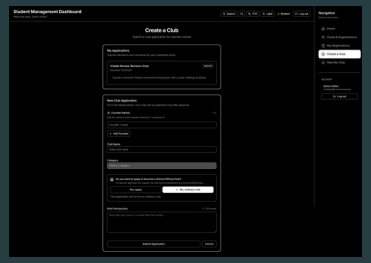

41 · Navigation search dialog

Use the navigation search dialog to find destinations.

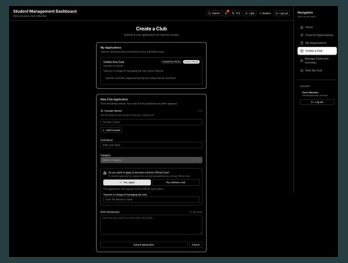

Join, participate, reflect

Applications become participation; journals and ratings close the loop.

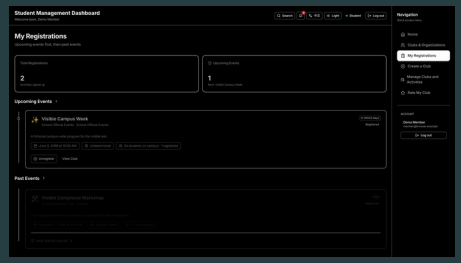

02 · Create Club / My Applications, teacher feedback

Create a club and revisit application status with teacher feedback.

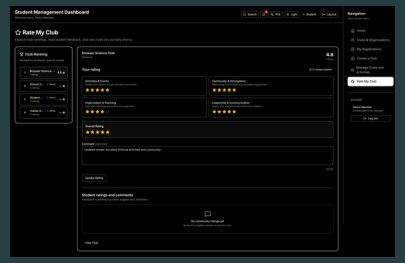

37 · Official club application teacher fields

The official club application includes teacher-related fields.

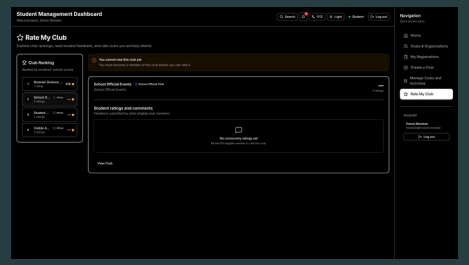

34 · Upcoming and past registrations

Revisit upcoming and past activity registrations.

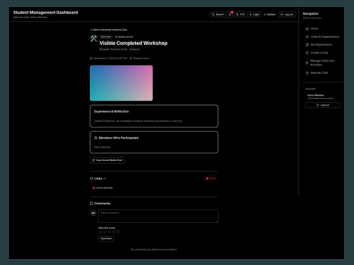

35 · Eligible rating edit and ranking

An eligible member can edit a rating and inspect the ranking.

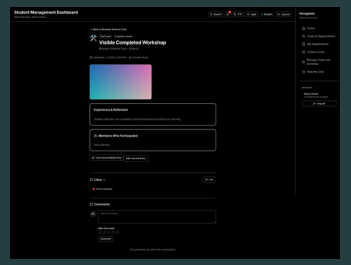

40 · Rating attendance/membership requirement

Rating requires the displayed membership and attendance conditions.

36 · Journal without owner edit controls

Members read the journal without owner editing controls.

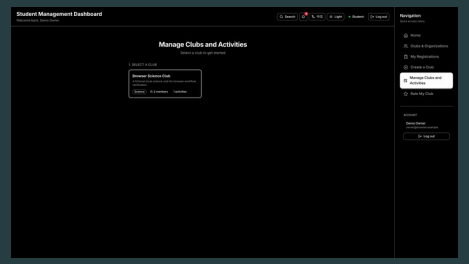

07 · Published activity journal

Read a published activity journal with its photo and discussion.

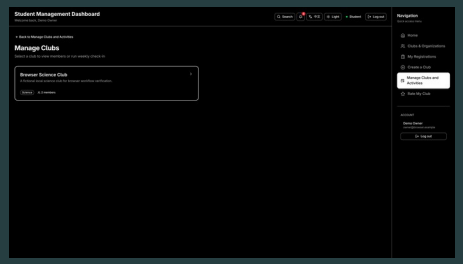

Lead the people

Ownership opens a focused path to members and attendance.

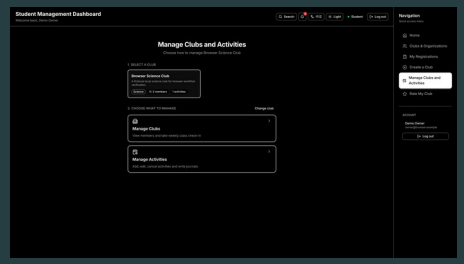

08 · Manage clubs and activities

Begin management by choosing clubs or activities.

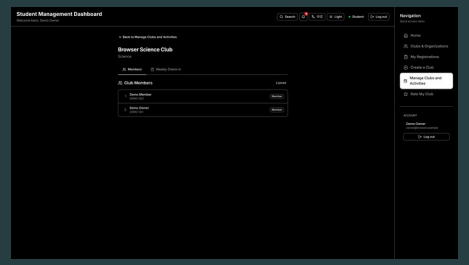

09 · Manage club selection

Select an owned club to manage.

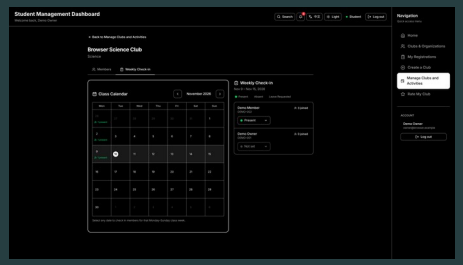

20 · Selected club management choices

The selected club exposes member and attendance management choices.

10 · Manage members

Inspect the selected club’s member roster.

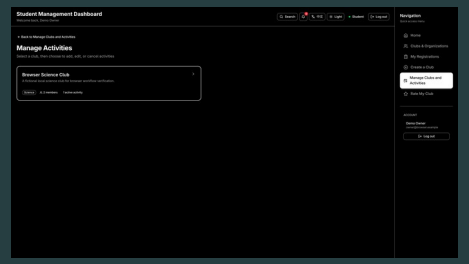

11 · Weekly attendance

Record weekly attendance from the club calendar.

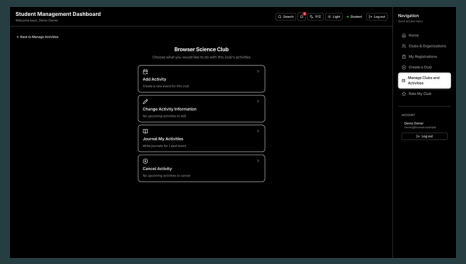

Run the activity lifecycle

Choose a club, plan an activity, and publish its story.

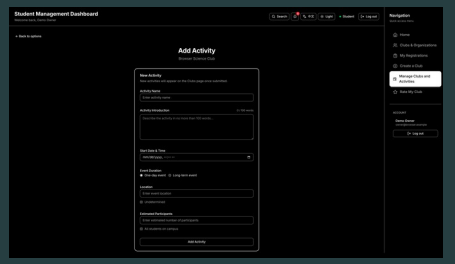

12 · Manage activity club selection

Select the club whose activities you want to manage.

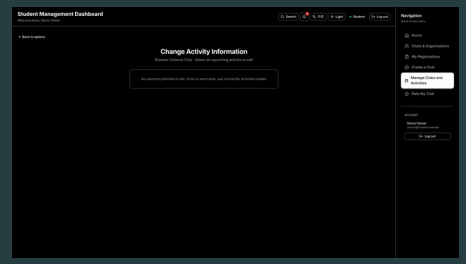

13 · Activity management options

Choose creation, editing, cancellation or journaling.

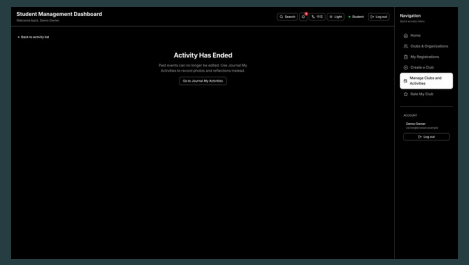

14 · Create activity

Enter a new activity's details in the creation form.

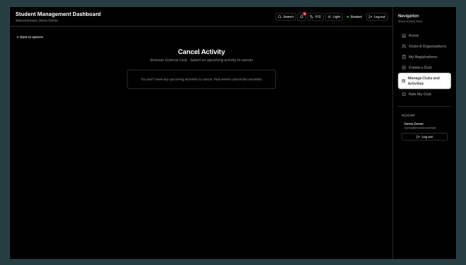

15 · Edit activity selection

Select an activity before requesting an edit.

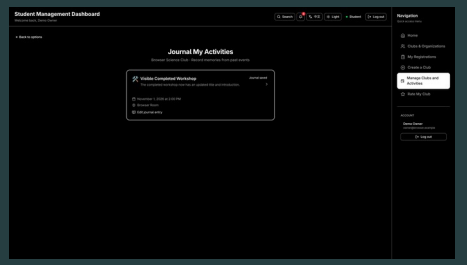

16 · Past activity edit guard

The past-activity guard blocks editing after an event has ended.

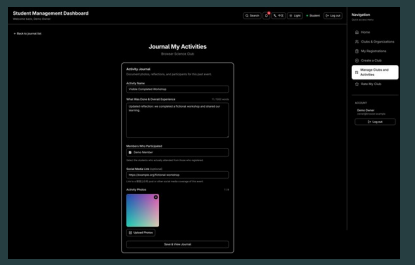

17 · Cancel activity (no remaining future events)

The cancellation selector is empty after the recorded cancellation.

18 · Journal event selection

Choose an event before opening its journal.

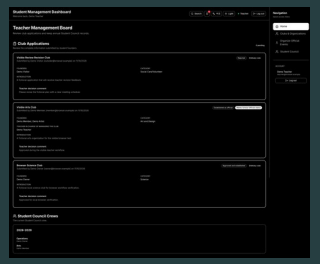

19 · Journal edit form

Edit the journal narrative and photo reference in the owner form.

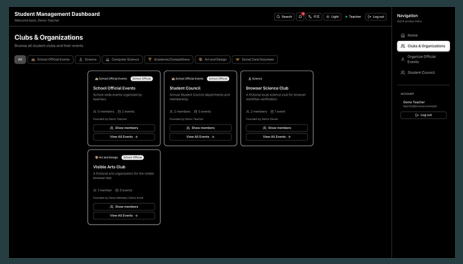

Review with context

Teachers see organizations, membership and participation together.

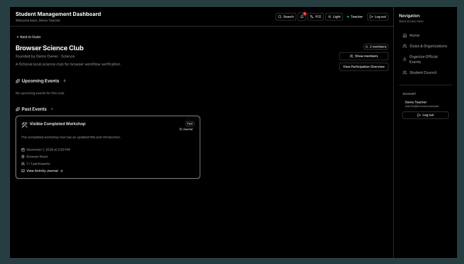

21 · Teacher Management Board

The teacher board brings review and administration tasks together.

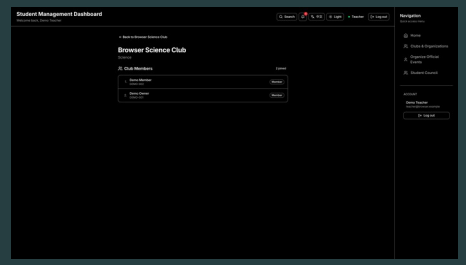

22 · Teacher organization directory

Teachers browse the organization directory from their own role.

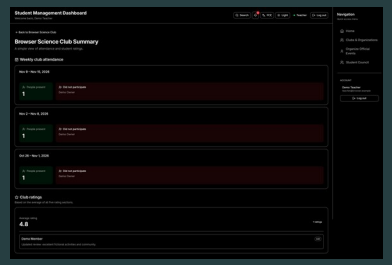

23 · Teacher club detail

The teacher detail view shows the club and its activities.

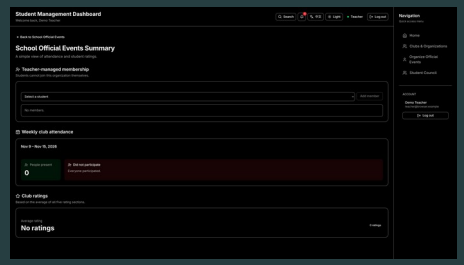

24 · Teacher member directory

Teachers can inspect the club member directory.

25 · Attendance and rating summary

Review attendance and rating summaries for club participation.

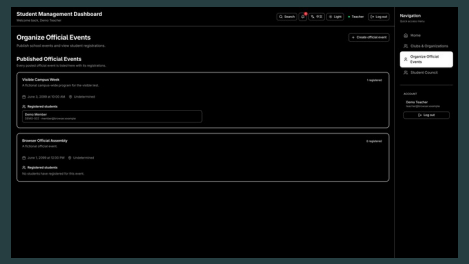

30 · Official organization membership management

Manage official organization membership from its summary.

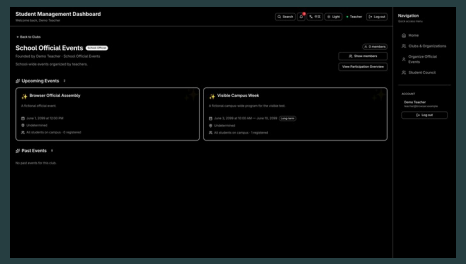

Coordinate the institution

Official events and council years preserve institutional continuity.

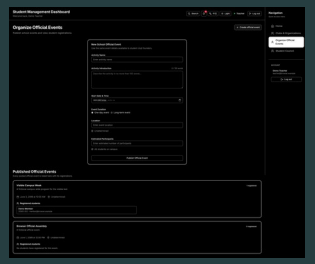

26 · Official events and registered students

Review official events and their registered students.

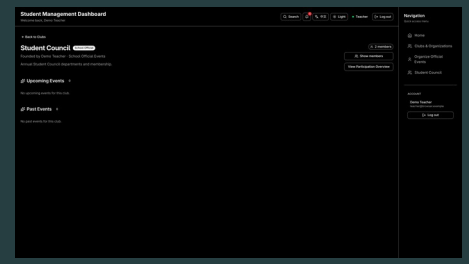

31 · Official event organization

Open the official event organization and its event list.

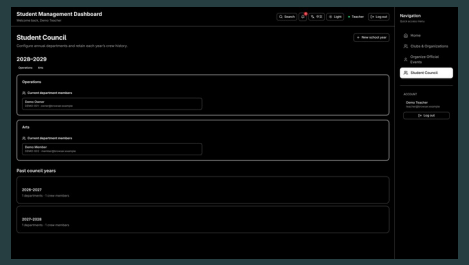

33 · New official event form

Prepare an official event using the teacher creation form.

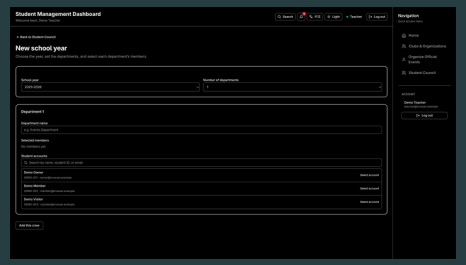

32 · Student Council organization

Inspect the Student Council organization page.

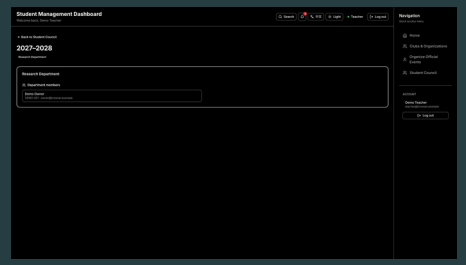

27 · Council current and archived crews

Browse the current council and archived council crews.

28 · New council year form

Prepare a new council year with its crew assignments.

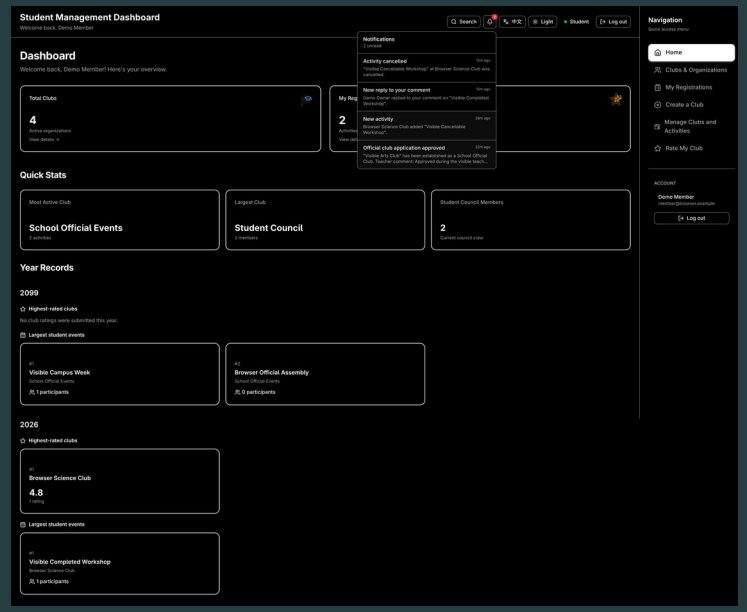

29 · Archived council year detail

Open a past year to inspect its archived council crew.

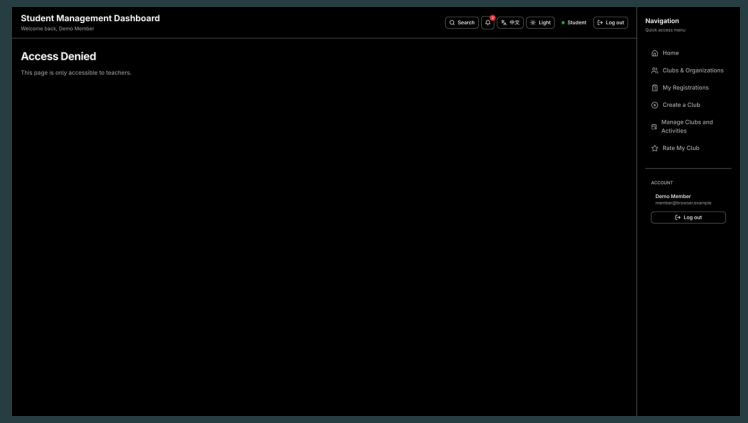

Stay informed, respect boundaries

Notifications guide attention; guard screens explain unavailable access.

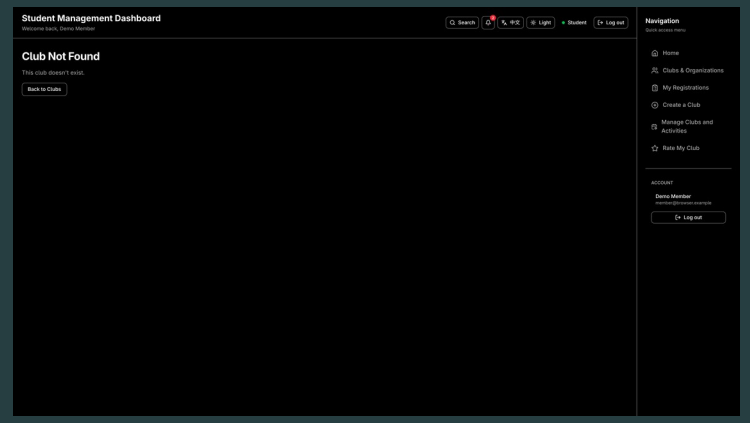

42 · Notification list and read state

Inspect notifications and their read state from the dashboard.

38 · Role access denied (intentional guard)

A student reaching a teacher-only page sees Access Denied.

39 · Missing club (intentional guard)

A missing club identifier produces the Club Not Found guard.
